WHY Choose inlingua ?

inlingua has developed an original method based on the natural learning process and oral application, allowing more rapid attainment of comprehension and speaking skills than other traditional methods.

This method has been tried and tested worldwide since 1968.

Thousands of trainees each year benefit from **inlingua** training courses in 322 centres spread throughout 37 countries.

Our local teams have in the last 2 years received trainees of different nationalities, among them American, German, English, Spanish, Mexicans, Russians, Irish, Swiss....

For **inlingua** La Rochelle it is of the utmost importance to offer the maximum speaking time to each trainee, that's why our groups are very small.

inlingua La Rochelle offers options aimed at those who wish to rapidly use the French language. They allow

our trainees to overcome their fear of speaking in public and to reach their personal and professional objectives.

The use of role play allows you to employ the language in situations which are beneficial to you.

Our trainers have numerous resources, varied tools and diverse activities which give a dynamic rhythm to face to face teaching.

Our custom built packages allow the trainer to target the best activities for each trainee to help them achieve their objectives.

A progress evaluation is carried out every 2 weeks, to ascertain what has been learnt and what objectives still have to be reached.

Studying with **inlingua** also gives you the possibility of discovering the beautiful Ile de Ré, a real jewel in the Atlantic Ocean.

We also are Bildungsurlaub accredited in Bremen, Hamburg, Berlin, Brandenburg, Sachsen-Anhalt, Baden-Württemberg and Rheinland-Pfalz.

“ **inlingua** reception staff are at your disposition to help organise your visits and discovery week-end. ”

Teaching method

The **inlingua** teaching method is essentially oral learning.

Trainers make the students feel comfortable and encourage them to speak, make mistakes, be corrected and so learn from them, giving them confidence.

The **inlingua** method is centred around teaching principles that will apply to every day and professional life.

Activities are split into three phases :

PRESENTATION

This first phase is where the trainer introduces new language, giving examples and demonstrating how it is used, as well as teaching the correct pronunciation.

PRODUCTION

In this final phase, participants are encouraged to explore and expand upon the new language they have just learnt, combining it with language that they have previously learnt. They are encouraged to talk about themselves, their opinions, experiences and generally broadening their discussions and taking part in role plays.

PRACTICE

During this phase of the lesson, participants practice and repeat the language that has just been introduced to them, under the guidance of the trainer. The aim is for the learners to correctly structure phrases, using questions and answers games. Any mistakes made are corrected.

Our training tools

Trainer resources are constantly evolving and thanks to video technology, genuine documents are often used as course materials.

Our participants can be filmed or recorded during short presentations or company visits so they can become aware of their strengths and weaknesses.

inlingua On Line (iOL)

inlingua has put its principal supports online in **inlingua On Line**.

Host family

Accommodation with a host family offers the chance to speak French in a relaxed and convivial atmosphere and the occasion to familiarize yourself with local customs and traditions.

We therefore recommend the half board option including breakfast and dinner with the family.

The families agree not to take more than one student of the same native language at a time.

Our team knows these families well, selected not only for their hospitality, the comfort of their home but also for the warmth of atmosphere therein.

Our host families are located close to our centres : you can expect to travel between 10 and 30 minutes maximum on foot, public transport or by bicycle (very popular means of transport in La Rochelle or on the Ile de Ré) to rejoin your host family.

If you come by car please let us know at the time of enrolment.

This offer of **accommodation is open to those over 18**. However, minors with parental permission may also apply.

If this option interests you, you must complete your enrolment at least 3 weeks before the date of arrival.

The stay extends from Sunday (arrival late afternoon) **to Saturday** (departure in the morning).

For stays in La Rochelle the family will meet you at the train station or the airport of La Rochelle.

For stays on the Ile de Re it is recommended that you take the shuttle from the station or the airport.

Discover the Atlantic coast

Our *ilingua* centres in La Rochelle and the Île de Ré are situated on the west coast of France, 480km from Paris at the centre of a crescent radiating from Bordeaux to Nantes passing through Poitiers with its famous Futuroscope. So many magnificent towns, sites and remarkable places of interest to visit all year round from the region of Cognac and Saint-Émilion for the lovers of good wine, to the many curiosities of the region around Nantes.

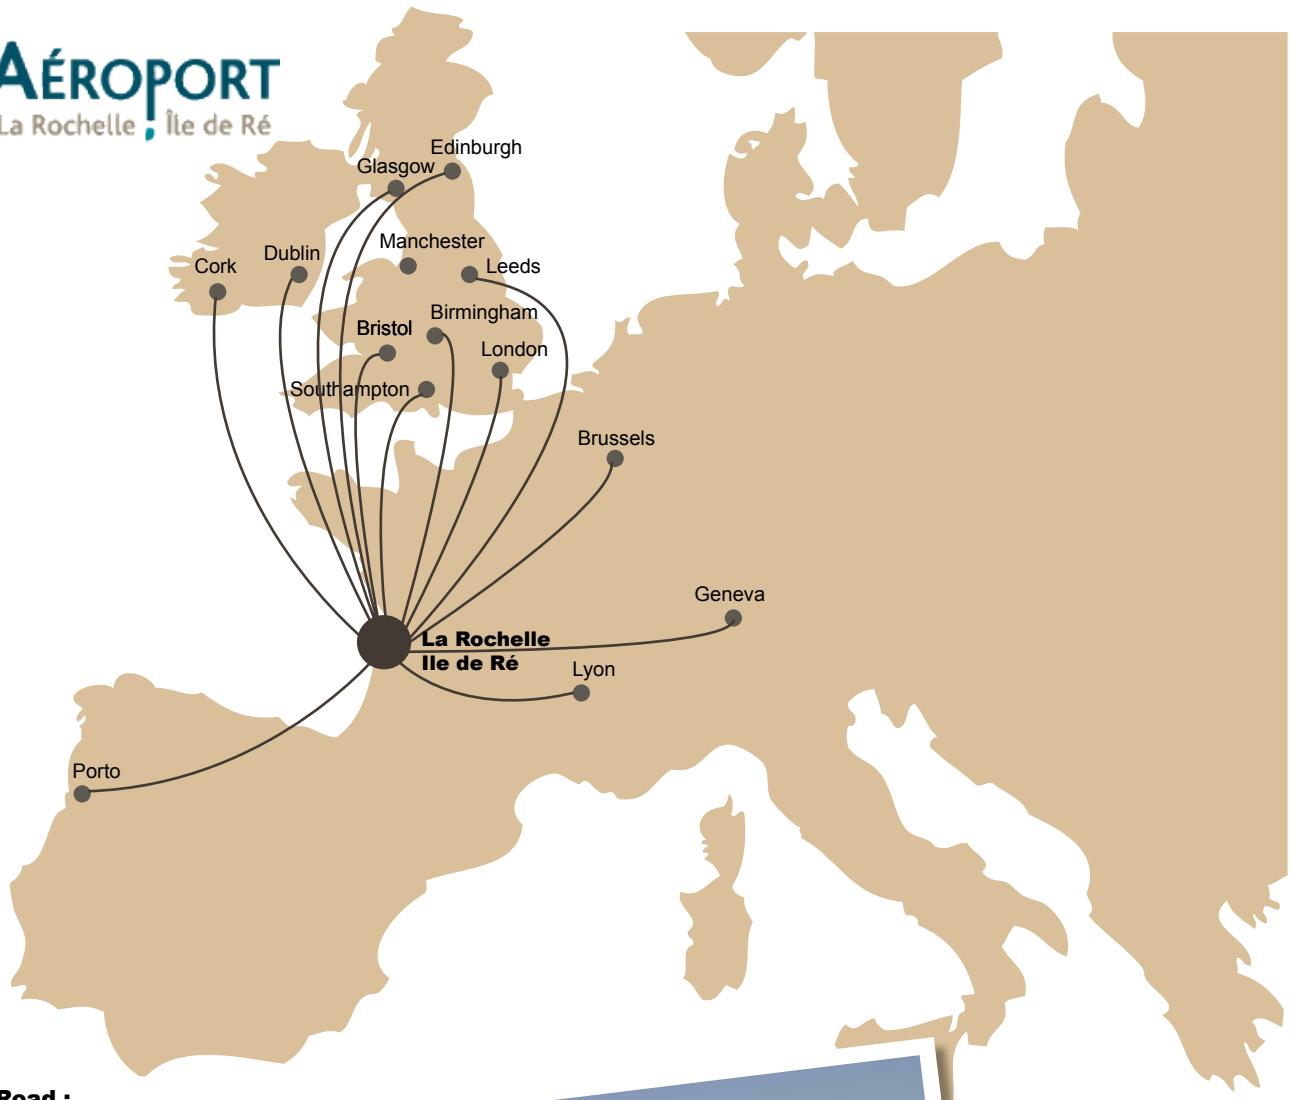

You will also appreciate the gastronomy, the cultural, architectural and environmental richness of this immense region which makes up the great West with its bracing climate. You will be seduced by the beauty of our coast and the numerous natural reserves, the "côte sauvage" near Royan, the creeks, cliffs and superb white sandy beaches of Les Sables d'Olonne.

Not forgetting our islands (Oléron, Ré, Aix...) which can be visited either by boat, on foot, by bike, on horseback for breakaways at anytime of the year. It is these remarkable sites, like the Marais Poitevin, which give La Rochelle and its region its drawing power and places it amongst the most touristic in France. For example, the successful "Nuits Romanes" and the open-air shows will enchant your summer evenings in a number of magical locations.
