

summer program in

**San Diego**

San Diego is the second largest city in California. It is located in Southern California, on San Diego Bay. It is two hours south of Los Angeles. Many think San Diego has the best climate in the United States. Daytime temperatures average 70 degrees Fahrenheit year round. The weather is typically sunny and mild without many temperature extremes. San Diego is a center of arts and culture. It offers museums, the performing arts, and much more.

San Diego has attractions too numerous to do justice in a simple list. Some of San Diego's more unique attractions include:

- Balboa Park, overlooking both downtown San Diego and the Pacific Ocean
- The Gaslamp Quarter Historic District
- Old Town San Diego
- SeaWorld
- The world famous San Diego Zoo

In a city with easy access to beaches and parks and an eminently civilized climate, it would be hard not to do as the San Diegans do and venture outdoors.

*access to learning*

*access to adventure*

*access to the future*
